LEARNING OUTCOMES

Statements of what an individual knows, understands and is able to do on completion of a learning activity

(at a given level within a qualifications framework)
CREDITS

In ECTS: credits express the amount of workload related to a learning activity

Workload = an estimation of the time the individual needs to complete this learning activity

1 ECTS-credit = 25 - 30h workload
ECTS

- Developed in parallel with the Erasmus programme (°1989)
- Gradually its use broadened (also outside mobility context)
  - From transfer in different context
  - To accumulation of credits
- More and more focused on learning outcomes
- European Credit Transfer and Accumulation System
LEARNING OUTCOMES AND CREDITS IN LEGISLATION IN FLEMISH COMMUNITY (BE)

- “Each HEI describes the learning outcomes of each programme and each course”
- “Credits = an international unit* that is accepted in Flanders of min. 25 and max. 30 hours of education, learning and evaluation activities, expressing the volume of each programme or course”
  
  * = Reference to ECTS
LEARNING OUTCOMES AND CREDITS IN MOBILITY

– Create transparency and transferability
– Main building blocks in degree and credit mobility
– But also
  – key elements in HE programme design
  – potential crucial elements in transition to the labour market and hence labour & social mobility
STARTING POINT:
LO’S AND CREDITS IN PROGRAMME DESIGN

Recommended: 10-12 learning outcomes at programme level
6-8 learning outcomes for educational components

Guideline
Learning outcomes should:
• reflect the context, level, scope and content of the programme
• be succinct and not too detailed;
• be mutually consistent
• be easily understandable and verifiable
• be achievable within the workload
• be linked with appropriate learning activities, assessment methods and assessment criteria

Formulation
• Use an active verb to express what students are expected to know and be able to do
• Specify what the outcomes refer to
• Specify the way of demonstrating the achievement of the learning outcomes
• 60 credits for a full-time-equivalent academic year
• Use of modules – benefits for collaboration across subjects and faculties
• ‘Mobility windows’ facilitate learning mobility
• Progression requirements must be explicit
• Independent learners joining a formal programme should receive appropriate counselling/advice to support them
ASSESSMENT AND AWARD OF CREDITS

General principles

Open dialogue and participation
Consistency
Flexibility
Transparency and reliability
ECTS AND QUALITY ASSURANCE

- Good practice in using ECTS will help institutions improve the quality of their programmes and their learning mobility offer
- ECTS should be quality assured through appropriate evaluation processes and continuous quality enhancement

Evaluation indicators

- Educational components are expressed in terms of appropriate learning outcomes, and information is available concerning their level, credits, delivery and assessment
- Studies can be completed in the time allocated to them
- Annual monitoring examines any variations in patterns of achievement and results, and follows up with appropriate revision
- Students are provided with detailed information and advice
- Students are informed promptly of their results
ECTS SUPPORTING DOCUMENTS

– Course Catalogue
– Learning Agreement
– Transcript of Records

→ Exist both for studies and for placements
→ All refer to learning outcomes / credits
LEARNING OUTCOMES & CREDITS IN ECTS: COURSE CATALOGUE

Includes detailed, user-friendly and up-to-date information on the institution’s learning environment

Recommended elements

- Name and address
- Description of institution
- Academic authorities
- Academic calendar
- Programmes offered
- Admission requirements
- Recognition of credit mobility
- ECTS credit allocation policy
- Academic guidance
- Information on programmes
- Information on individual educational components
- Student affairs office
- Accommodation and meals
- Cost of living and financial support
- Learning and medical facilities
- Insurance
- Facilities for students with disabilities/special needs
- International mobility possibilities
- Language courses
- Work placement possibilities
- Sports and leisure facilities
- Student associations
LEARNING OUTCOMES & CREDITS IN ECTS: LEARNING AGREEMENT

Outlines the learning activities to be carried out by the student within the receiving institution

Recommended elements

- Name and contact details of student
- Names, addresses and contact details of sending and receiving institutions
- Student’s field of study at sending institution
- Study cycle
- Type of organisation/company
- **Period of study at the receiving institution and ECTS credits**

- **Learning outcomes**
- Traineeship period programme
- Working hours per week
- Level of competence in workplace language
- Monitoring and evaluation plan
- Provisions for changes to the Agreement
- Recognition arrangements
- Signatures of three parties

**Commitment**

By signing this document, the student, the Sending Institution and the Receiving Institution confirm that they approve the Learning Agreement and that they will comply with all the arrangements agreed by all parties. Sending and Receiving Institutions undertake to apply all the principles of the Erasmus Charter for Higher Education relating to mobility for studies (or the principles agreed in the Inter-Institutional Agreement for institutions located in Partner Countries). The Beneficiary Institution and the student should also commit to what is set out in the Erasmus+ grant agreement. The Receiving Institution confirms that the educational components listed in Table A are in line with its course catalogue and should be available to the student.

The Sending Institution commits to recognise all the credits or equivalent units gained at the Receiving Institution for the successfully completed educational components and to count them towards the student’s degree as described in Table B. Any exceptions to this rule are documented in an annex of this Learning Agreement and agreed by all parties. The student and the Receiving Institution will communicate to the Sending Institution any problems or changes regarding the study programme, responsible persons and for study period.

IN GHENT UNIVERSITY’S REGULATION

– For outgoing students, the curriculum committee will determine the exchange courses based on the content of the Learning Agreement. In this process, the committee aims to substitute a set of course units from the study programme at Ghent University for another set of exchange courses offered at the receiving institution, instead of substituting separate course units. Substituting the set of course units from Ghent University with the set of exchange courses offered by the receiving institution may cause deviations (in a positive or negative sense) from the total study load of the Ghent University programme. The negative deviation may only amount to a maximum of 2 ECTS-credits.
NEW PROPOSAL CIRCULATING: CLOSING THE LOOP (1)

– New Erasmus+ programme from 2021 onwards
– Highly probable: opening Erasmus-mobility (“KA103”) to non-programme countries
– What about the “Erasmus Charter for Higher Education” (ECHE)?
  – ECHE → huge focus on ECTS *acquis*!
NEW PROPOSAL CIRCULATING: CLOSING THE LOOP (2)

– At the same time: discussion about ‘full recognition’
– Adopt the Learning Agreement format
  – Before the mobility
  – During the mobility
  – After the mobility
NEW FORMAT OF LEARNING AGREEMENT?

– Before the mobility
  – No ‘signature’ (official agreement) of host institution needed (speeds up process; host = not responsible for final recognition; in +70% of cases alterations were needed anyhow)

– During the mobility:
  – The “adjusted” plan (tables A2 and B2) become the ‘real learning agreement’
  – ‘signed’ (= digitally approved) by the 3 parties involved (student, home and host HEI)
NEW FORMAT OF LEARNING AGREEMENT?

- After the mobility
  - Transcript of records → Learning Agreement after mobility clearly links original study programme (of home institution) and courses follow at host institution
- AND (proposal): learning outcomes will be mentioned - cf. also proposal for an adjusted diploma supplement (+ other relevant information to support the student?)
CONCLUSIONS

– Students have the right to be well informed and (certainly ‘Erasmus’-students) expect information and certainty about their programme and the recognition thereof before/at the beginning of their exchange period abroad
– We need to meet the expectations of students
– Learning outcomes (and credits) play a crucial role in this
– This role will most probably increase in the next Erasmus programme (also for non-European exchanges)
