The strategy will include proposals for concrete activities to overcome the imbalance in mobility between Asia and Europe”

The proposal was presented at ASEMME5 at Riga, Latvia and Ministers agreed as follow:

“... being a group of 9 people brought enrichment instead of impoverishment, because we really stuck together and created life-long relationships, teaching each other about our cultural backgrounds and sharing our interests and dreams. I really treasured the conversation and discussions held to improve a project that was perfect with its imperfections.”

- Noemi Spatola, ITALY

“"As a biologist, I would say that I expected more on the biodiversity modules because I know there are still more that Malaysia can offer. Culturally, I was very refreshed after each experience. As a Filipino Catholic, it was enlightening to be exposed to a lot of Muslim culture, since I am seldom exposed to it back home. I gained a new appreciation towards Muslim culture. And the best part was gaining new friends from the camp and eating a lot of delicious spicy Malaysian food. I will definitely recommend this to all my colleagues next year.”

-Manuel Eduardo De La Paz, PHILIPPINES

“We definitely didn’t just learn about biodiversity and cultural heritage, but we also learned about how to be a good leader by exercising soft skills. We also visited some amazing places in Malaysia like Putrajaya, Forest Research Institute Malaysia (FRIM), Melaka, and so on. It was a great opportunity to learn about the richness and diversity of Asian culture.”

“I am impressed with the Malay culture and history because it is so unique and different from my Japanese culture. I never have a chance to be friend with Muslim people before, but after knowing them, I believe we should respect their culture and vice versa. This is one of the precious experience for me because I get to know about other culture. I am able to exchange knowledge and experiences through this AEI-ASEM Summer School programme.”

- Nakanishi Moe, Japan -

“The AEI-ASEM Summer School was a great opportunity to learn in-depth about the different facets of Malaysia. It was a great mix of seminars, cultural activities and sightseeing. Lecturers from both Malaysia and abroad taught on various subjects ranging from history, culture, business and current affairs. They shared their knowledge and experiences with us.

“What an incredible two weeks! I have made some incredible friends and met some frankly fascinating people. Malaysia is a beautiful country that I luckily have not left quite yet. It has such a rich past and present that I am so fortunate to have had the chance to learn about and experience. So many insightful lectures, field trips, and of course the two day Asia Europe conference, have given me much food for thought (and perhaps some inspiration for my thesis!!!)”

- Antonia Gough, British-

“AEI-ASEM Summer School gives me opportunity not only to learn serious stuff such as regionalism and multiculturalism, but also gives me the opportunity to understand the people. The friendship that is created by this event would last a lifetime!”

-Ghifari Athallah Ramadhan, Indonesia-

“There are experiences which happen once in a lifetime but they are so unique that they leave a lasting mark on you. The Summer school both in Kuala Lumpur and Brussels was one of them for me because of the incredible opportunity to meet passionate young people full of ideas from all over the world and to spend three unforgettable weeks with them exploring the peculiarities of the European and South-East Asian culture, historical heritage and, of course, delicious cuisine. Those were three rewarding and personally enriching weeks for me during which not only did I learn a lot thanks to the diverse academic lectures but also through peer-to-peer sharing and experiencing for myself the differences and similarities between the Malaysian and Belgium multicultural societies”.
